PETRO PRIMER PASTE

PRODUCT DATA SHEET

Description: Petrolatum based primer for application on metal surfaces prior to wrapping with Petro Anti Corrosion Tape.

Use: Petro Primer acts as a bonding agent by displacing excess moisture on metal surfaces prior to wrapping with Petro Anti Corrosion Tape. Petro Primer can be applied in wet environments on new or corroded surfaces.

Temperature: Withstands temperatures -46 Deg. C. to 70 Deg. C.
-50 Deg. F. to 158 Deg. F.

Colour: Brown

Surface

Preparation: Remove loose dirt and contaminants using a wire brush. Eliminate all sharp edges and welding splatter.

Application: Petro Primer can be brushed or ragged on with a thin, uniform coat. Utilize heavier application on pitted areas, bolt heads, or any other contoured or sharp surface.

Packaging: One gallon pail x 4 per Box
